## PROFESSIONAL OVERVIEW

I am Rupesh an aspiring REACT and UI Learning fresher who is trying to seek a role to enhance and explore my technical knowledge in your company. I am a passionate **React UI Developer** with a keen interest in building interactive and user-friendly web applications. Currently, I am exploring the world of **frontend development**, focusing on creating seamless, responsive, and high-performance UIs.

## WORK EXPERIENCE

### React Js Developer

Singnimius Tech. Indore | 2025- Present

- Implement **responsive** and **accessible** UI designs using **HTML, CSS, and Tailwind/Bootstrap**.
- Integrate **APIs** and handle state management efficiently Use simple language and make it easily readable.
- Debug and troubleshoot UI issues and bugs.
- Participate in **code reviews** and improve coding best practices.
- Optimize components for **performance** and **reusability**.

### UI full stack Course

NareshIT, Hyderabad | 2023

- Gain hands-on experience in **real-world UI development**.
- Improve skills in **React component development and state management**.
- Learn best practices for **UI/UX design and performance optimization**.
- Understand how to collaborate in a **professional development environment**.
- Strengthen **problem-solving and debugging** abilities.

### SDITS khandwa

Smart india hackathon | 2022

- Develop interactive travel booking interfaces using React.js.
- Implement features like destination search, itinerary planner, and booking management.
- Optimize UI for mobile-friendly and responsive design.
- Integrate **Google Maps API** or other mapping services for location-based features.
- Fetch and display travel data from **APIs (e.g., weather, flights, hotels, places of interest)**.
